Education in United Kingdom

The most famous universities in United Kingdom

Great Britain

Country with centuries-old traditions of higher education. The first English university

Oxford University

It was founded in the XI century. Since then, many educational institutions have grown on the shores of Misty Albion. Today, some of them, like Oxford, do not need a submission. The most prestigious universities of Great Britain according to the Times Higher Education

One of the most authoritative publications specializing in the creation of international rates of educational institutions, The Times Higher Education (The) surpassed its colleagues as part of the definition of such rather blurred indicators as the impact and prestige of the educational institution.

In addition to the overall world ranking of universities, the World Reputation Rankings 2016 is published on the website. This classification is formed on the basis of a survey of specialists from the academic environment and is the top 100 most influential universities in the world.

The top ten of the most famous and prestigious universities of the planet, according to The, includes 2 English educational institutions: University of Oxford and University of Cambridge.

University of Oxford.

The oldest university of Great Britain. The official opening date of the university is not established: according to some reports, the first students, mainly clergymen appeared in Oxford back in the XI century.

Today, UNIVERSITY OF OXFORD includes 38 colleges in which more than 22,000 students study. The university's teaching staff form members of prestigious scientific organizations, such as the London Royal Society and the British Academy. Among the graduates of Oxford

Jonathan Swift, Lewis Carroll, Oscar Wilde and Margaret Thatcher.

University of Cambridge.

The second in the seniority of the University of Britain and the most important rival Oxford in the battle for places in international ratings (applicants are prohibited from the same year to submit documents in both universities).

Cambridge was founded in 1209 by a group of scientists who left Oxford. Today, the university is a confederation of 31 colleges, which learn about 19,000 students from around the world. Among students and employees of the University of 130 Nobel laureates

More than any other university of the world. Famous Universities in United Kingdom in QS World University Rankings 2016-2017

Other analytical giants are not taken to form classifications exclusively on the basis of such a subjective indicator as a university reputation in an academic environment. However, they often include a reputation in a general list of criteria, along with a number of objective parameters: the amount of research work of the university, the Hirsch index (scientific quotation index), etc.

For example, when drawing up QS WORLD UNIVERSITY RANKINGS (R) rankings 2016-2017, there are indicators such as academic reputation and reputation for employers.

The top ten universities in the world according to QS World University Rankings this year included 4 British educational institutions: the above Cambridge and Oxford, as well as UCL (University College London) and Imperial College London.

University College London (UCL) was founded in London in 1826. At the time of discovery, UCL became the first university located in the British capital, as well as the first educational institution of the country, where students were taken regardless of their religion. In addition, in 1876, the University earlier than other universities of Great Britain began to educate women.

Today, UCL is the oldest college as part of University of London. More than 38,000 students study here, the university has 2 overseas campuses

In Qatar and in Australia. Among the graduates of the university

Such outstanding personality as Mahatma Gandhi, Alexander Bell, Peter Higgs (in honor of which Boson Higgs was named).

Imperial College London.

Luxury Technical University in South Kensington. The educational institution was founded in 1907 by merging the three previously existing universities. Exactly one hundred years of IMPERIAL College London, like University College London, was part of the University of London, but since 2007, the

college works as an independent educational institution.

In Imperial College London, more than 16 thousand students study. Among graduates and college employees are 15 Nobel laureates, as well as many members of authoritative scientific communities. The most famous universities in the United Kingdom in other international rankings

For complete picture, consider another 2 classifications of higher educational institutions from authoritative rating agencies.

In the Top 20 Universities in the world according to CWUR, in 2016, all the same Oxford and Cambridge are included. Twenty best from U.S. NEWS.

WORLD REPORT In addition to Oxbridge also includes Imperial College London.

After analyzing information from the above sources, it is not difficult to notice that the list of the most famous universities of England is not so extensive and does not differ in great openness. From year to year, prizes in the rankings of the best universities of the planet go to the same British universities (Oxbridge + - 1, 2 universities). Young educational institutions simply are not able to compete with the ancient giants whose reputation and authority were incentive.

At the same time, do not forget that training in famous universities in Great Britain is usually very expensive

at least 15,000 per year. At the same time, the requirements for applicants are so high that a foreigner has almost no chance to pass exams on the required level.

Fortunately, in addition to Oxbridge, there are many other universities in the UK, which cannot boast such a rich history or an extensive list of famous graduates, but the quality of education in them meets all international standards, and the price for training is much lower than in the legendary universities.

If you are thinking about going to study in the UK, contact the Global Dialogue company. Our managers will help you find a university that is suitable for you, and correctly arrange documents for admission. You can sign up for a consultation by phone +7 (495) 984-33-73 (Moscow), +7 (861) 205-01-51 (Krasnodar) and 8 (800) 707-66-51 (other regions).
